Bucying a Fort, Onite on original method of taking a fort is described in the last number of Black-wood's Mugazine, in 1699, a large bus-sian army beneiged the Turkish fort of Asof, which was situated on a plain, strongly fortified, and had a small but well disciplined garrison. No remnou approaches could be made to it, and the Turkish cannon swept tha leval with iren hail. In this case the engineering skill of the Russians was builted; but General Patriak Gordon, the right hand man of Pater the Great, and the only one for whose dasth, it is said, haver shed a tear, being desermined to take the place at any cost, proposed to bury it with earth by gradned procedures. He had a large-group; tha soil of the plain was light and deap, and havet twaive thousand men to work with spades, throwing up a high circumvallation of earth, and advancing meater and measer every day to the place, by throwing up the huge earth wall theore them in advance. The men were kept in gangs, working day and night, the earth being thrown from one to another, like the stem of a sisir, the top gang taking the lowest place every half hour in succession. In five weeks the large earth wall was carried torward nearly one talle, until it rose to and above the highest rangarts, and the earth began to roll ever them. This canced the Turkish governor to hang out the white flag, and give in. Had he not done eo, General Gordon would have burled the fertress.

C. The letter of warning, the sammons to appear before a tribinal unknown to the laws, is published only to let the people of Logisville know the character of those who, it appears, have undertaken to govern the city and administer justice, according to the code of Judge Lynch, to all who may incur their displeasurse.

C. M. TALMAGE.

We are informed that on yesterday the Ministers of the District waited on Mr. Lincola in a body to urge a course of reconciliation and peace, and that he replied that the platform on which he was clasted should be carried out if it cost the lives of a radiancy meet.—[Airxandria (Va.) Sent.

You see I date from "Old Edinboro' town;" and a strange, quaint, and grey old place it is. We "exiles" have just received the news of the surrender of Fort Sunter, and of the surrender of Virginia. "The news from America," is the cry of the news-venders. The excitement is intense, both here and in Louden. Italian affairs are in the shade. No one speaks of the Pope. I read an article in Dickens' Weekly, up-on Street Railroads in America, in which the writer speaks of taking the street cars in Boston, after dinner, riding across the Neck, viewing the fine residences, &2., and after an hour's delightful ride upon the banks of the Schapkill, returning in thus for tea, to Boston! Quick work that. So they go, they know less of us, than we do of Timbucto. Their ideas of our con-try, and our institutions are all gathered from Dickens, Harrist? My brethren and friends will bear me

It has pleased God to permit a great It has pleased God to permit a great calamity to come upon ns. Our whole country is praparing for war. Our whole country is praparing for war. Our own State, after failing is her earnest effort for the presentation of peace, is, perhaps, more actively engaged in all nsedful managers for maintaining the position which she has, after much consideration, deliberately assumed, than any portion of the land.

A deeper and more honest conviction that if war should actually come upon us, it will be on our part one of self-defense, and, therefore, justifiable before God, seldou, if ever, aslimated the breast of thous

and, therefore, instituble before God, seldout, if ever, astinated the breast of thous who appeal to arross. From this consideration and from my knowledge of the cheracter of our people, I believe that the object sought for will be most persaveringly pursued, whatever sacrifice of life and comfort and treasurs may he raquired. Nor do I cutertain ony doubt as to the final result, though I shudder at the thought of what may reference before their result is secured. May God in great mersy and with His mighty power, interpose and grant as speedy peace instead of protracted war! But can it be that, at this period of the world, when so many prayers are offered up for the establishment of Christ's kingdom in all the earth, and such high lom in all the earth, and such high are entertained that the zeaions ofopes are entertained that the zealons of-ports put forth will be successful, and our country be ous of the most effective and concred instruments for producing the une, that the great work shall be arrest-d by such a fratricidal war as that which show so seriously threatened? Is there is now so seriously threatened? Is there and room enough for usual to dwell to gether in peace in this widely extended country, so large a portion of which is yet unsettled, and may not be until the world that now is shall be no more! The families or natious which sprung from two venerable patriarchs of old, could find room chough in the little pent-up land of Juden to live in peace, by coing the our to our concap in the little pent-up land of Juden to live in peace, by going the one to one hind and the other to the opposite. At a later period, when larnel and Judah separated, and the latter having the city and temple in possession, and the apprenacy, according to prophecy, was preparing to go up against the former and reduce the people to attornsission and bring them back te union time Lord himself came down and forbade it, earling: "Thou shall not go up nor fight against your bethreen, the children of larnel. Helurn every mon to his house, for this thing is of us." And they hearkened unto the Lord, and even after the history of the two kingdoms is written in the same sacred volume in which are also recorded the evidence of God's favor to both, and though sometimes at contraversy, yet how often melimes at controversy, yet how offer

The Battle at Acquin Creek-The Anacosta and Preeborn Disabled-Jeff. Davis at Richmond.

[From the Cincinnal Enoutrer.]
Washingron, Saturday, June 1.
The first day of aummer has brought us into active hostilities. The action against the Confederate batteries at Acquia Creek, commone destorday, was continued to-day, with adderable loss on both sides. This two futurers, Anacosta and Freebern, after a selecte fight, were disarded and compelled on retire and await relatorements. Several skirmiskes have occured last night and to-day near Fairfac Court-house. The Federal troops passed through the village twice, and dott seven men and several wounded. They were fired upon from the houses. Women in some cases were disovered leading the guns for the men, and urging them on. It is a fatal mistake to suppose that there is a party in Eastarm Virginia that will support the Government. On the contrary the people evines the most bitter and undying harred toward the North, who, they believe, are making war upon them simply upon the slavery canse.

Itison, who was appointed Collector at Alexandria, declines the post. The people at that place are loud in their complaints of the insults and oppression of the North. Jetterson Davis arrived at Richmond on Wednesday. He was received with amultinous demonstrations of joy. It is said that he is ready to make overtimes to President Lincoln to decide the contest by a pitched battle, allowing the North to have oue-tenth more men than the South. The Way the Administration Treats Workingmen-Bayonels to Silence Complaints. The military agents of the Administra tion have had a large number of eargumers and laborers in their employment at Camp

Dennison at Cincinnati. These workingmen say that they had been promised \$1 75 a day for their ser vices; and notwithstanding the denial of the Quartermaster, we believe they claimed

that amount properly. The other day it was ennounced that these workmen would be pald off on Thuisday; but to their amazement, when they presented their claims, they were could nformed that they would be allowed \$1.25 a day, and no more—that they should take

that or nothing! They felt outraged; they realized that an atlempt was being made to swindle them; of they protested in bitter and strong terms against each treatment.

But their complaints were unheeded their protests were langued at; and finally a detachment of soldiers, with fixed by nets, and guns loaded with Minic balls,

lainants were compelled to submit to the fraud, and give receipts in full at the rate of fifty cents a day less than they felt that

The game of those who would like to see reign of terror inaugurated here is thus sed. It is not the first warning of the and we have seen. But it wou't win. Matters are coming to a beautiful pass, adeed, when such things can be here.

Another Pabrication Exposed. The Louisville Journal daily teems with rtieles making statements which have not a particle of foundation in truth, and which seem to be used for the sole purpose of inflaming and exciting people. A few days sluce it was terribly exercised because it learned from "a highly respectable young gentleman," that Gov. Marris, of Tennessee, intended to occupy Columbus, Ky., with Tennessee troops. The Nashville Union thus effectually disposes of this miserable canard:

In reply to the above article, we are authorized to atate that Gov. Ilarris never at any time received from Gov. Magoffin, "assurance of permission to occupy Columbus, Ky., with Tennessee troops;" nor has he at any time contemplated the occupation of Columbus, or any other point in Kentucky. On the contrary, disposed to accept the neutrality of Keutucky himself, he trusts that all others are as willing and anxload as he is, that it shall be respected.
